1. Project Overview

The current IT procurement process for standard laptops involves manual configuration and task handling, which can cause delays, oversight, and additional manual effort. The proposed solution uses ServiceNow Flow Designer to automatically create a Catalog Task after the Standard Laptop request is approved, populate the task details, and assign it to the Hardware group.

4.user story

The supplied user-story template uses User Type, Functional Requirement/Epic, User Story Number, User Story/Task, Acceptance Criteria, Priority, and Release.

User Type	Functional Requirement / Epic	ID	User Story / Task	Acceptance Criteria	Priority	Release
-----------	-------------------------------	----	-------------------	---------------------	----------	---------

Employee / Requester	Laptop Request	USN -1	As an employee, I can select the Standard Laptop service from the Service Catalog so that I can submit a laptop request.	Standard Laptop item is available and Order Now can be used.	High	Sprint-1
Employee / Requester	Approval	USN -2	As an employee, I can submit a Standard Laptop request that enters the approval process.	Request record is created and approval state is available.	High	Sprint-1
IT Procurement	Automation	USN -3	As an IT procurement team member, I want an approved Standard Laptop request to automatically trigger a Catalog Task.	When approval is Approved, the Flow Designer flow creates a Catalog Task.	High	Sprint-1
Hardware Team	Task Assignment	USN -4	As a hardware team member, I want the generated laptop	Catalog Task Assignment group is Hardware.	High	Sprint-1

			configuration task assigned to Hardware.			
Hardware Team	Task Details	USN -5	As a hardware team member, I want the generated task to contain the laptop configuration description.	Short description and Description contain "Laptop need to Configured" .	High	Sprint-1
IT Procurement	Status Tracking	USN -6	As an IT procurement team member, I can open the Requested Item and Catalog Tasks section to verify the generated task.	Catalog Task record is visible with updated status, short description, and assigned group.	Medium	Sprint-1
